

DRAGON NATURALLYSPEAKING Version 9 Feature Highlights

Dragon NaturallySpeaking Preferred 9 gives users the ability to create documents, reports, e-mails and more—all by speaking. Fast, easy and amazingly accurate, it's over three times faster than typing. Just use your voice to dictate and edit in Microsoft® Word and Excel®, Corel® WordPerfect®, and virtually all Windows®-based applications. You can even dictate into a handheld device when you're away from your PC, or use a Bluetooth microphone!

Key enhancements:

- ❖ **AutoTranscribe Folder**
The option to create a desktop folder to place digital dictations from a handheld device and have them transcribed automatically to streamline the dictation workflow.
- ❖ **Unprecedented Speech Recognition Accuracy - up to 99%**
- ❖ The new Dragon NaturallySpeaking 9 speech engine is up to 20% more accurate than version 8.
- ❖ **Expanded Support for New Applications**
Dragon NaturallySpeaking 9 now supports Mozilla Firefox and Thunderbird. Use built-in command-and-control commands to navigate more easily in Microsoft® Outlook® Express. Dictate, edit, and navigate more easily in Microsoft® Word and Corel® WordPerfect®.
- ❖ **Tutorials**
New tutorials simplify the training process, so you can be an expert Dragon NaturallySpeaking user right away.
- ❖ **Support for Non-standard Edit Controls**
Support for Non-standard Edit Controls means you get full Dragon functionality, such as "Select-And-Say" in more applications. New supported edit controls include Borland's TMemo, TEdit & TRichEdit controls as well as TE Edit from SubSystems and TX Text from TX Text Control.
- ❖ **Select-And-Say Indicator**
Dragon NaturallySpeaking 9 includes a new indicator that lets you know when you have "Select-And-Say" functionality available.
- ❖ **Dragon NaturallySpeaking Command Browser**
The Dragon NaturallySpeaking Command Browser is faster and easier to use than ever before.
- ❖ **Bluetooth Wireless Microphone Support**
Dragon NaturallySpeaking 9 supports certain Bluetooth wireless microphones as an input device, empowering you to dictate without being tethered to your PC.
- ❖ **Dictate Into Handheld Devices**
Dragon NaturallySpeaking 9 also supports handheld digital recorders and other PDAs that record in .wma and mp3 format for deferred transcription.
